Who are the Masons?

Freemasonry is the world's oldest continuing fraternal organization. The Grand Lodge of Masons in Massachusetts, founded in 1733, is the third oldest grand body of Masons in the world and the oldest in the western hemisphere. Our Grand Master is the direct successor in office to Paul Revere. Every Shriner is a Mason.

We are men, each trying to be the best versions of ourselves possible. We find that it's easier to do that when we are with others who share the same values. We're there for our brothers no matter what life may bring, and our brothers are there for us. We help others, not just because it's the right thing to do, but also because it helps us grow. We value honor and integrity and we believe that there's always more to learn.
